1c. Establishing goals for the School Psychologist appropriate to the setting and the students School Psychologist has no clear goals or the goals are inappropriate for either the situation or the age of the student(s).

Critical attributes

- 1. Goals are not appropriately aligned to meet the needs of the student population.
- 2. Lack of collaboration with school or district colleagues in order to develop goals for direct services.

School Psychologist's goals are rudimentary and only partially suitable for the situation and the age of the student(s).

Critical attributes

- 1. Goals have limited alignment for meeting the needs of the student population.
- 2. Collaborates with school or district colleagues in the development of goals for direct services only when required.

School Psychologist's goals are clear and appropriate within the context of the educational setting and for the age/developmental level of the student(s).

Critical attributes

- 1. Goals are clear and appropriate for meeting the needs of the student population.
- 2. Collaborates with school or district colleagues in order to develop goals for direct services.

School Psychologist's goals are highly appropriate and personalized based upon multiple factors within the context of the educational setting and for the age/developmental level of the student(s).

Critical attributes

- 1. Goals are clear, appropriate, and highly personalized to the context of the educational setting.
- 2. Seeks opportunities for ongoing dialogue with colleagues at school/district level to set goals.
- 3. Goals show awareness of nondiscriminatory practices/assessments to protect against disproportionate labeling or special education identification of students.

1d. Considering possible interventions and instructional supports based on student needs

School Psychologist does not consider possible academic, behavioral, and social/emotional interventions/supports for students.

Critical attributes

- 1. Does not demonstrate knowledge of evidencebased interventions across all Tiers.
- 2. Does not collaborate with school personnel in order to identify school-wide, at-risk, or special education interventions.
- 3. Unable to suggest or identify appropriate interventions that meet the needs of students.

School Psychologist considers possible academic, behavioral, and social/emotional interventions/ supports but inconsistently aligns supports to the specific needs of students.

Critical attributes

- 1. Demonstrates limited knowledge of evidencebased interventions across all Tiers.
- 2. Collaborates only when requested with school personnel in order to identify school-wide, at-risk, or special education interventions.
- 3. Limited suggestions for appropriate interventions to meet the needs of students.

School Psychologist considers possible evidence-based academic, behavioral, and social/emotional interventions/supports that target the specific needs of students.

Critical attributes

- Demonstrates an understanding of the supports and interventions that are available to students across all Tiers.
 Frequently collaborates
- Frequently collaborates with school personnel in order to develop schoolwide, at-risk, or special education interventions
- 3. Regularly suggests or identifies appropriate interventions that meet the needs of students.

School Psychologist thoroughly considers possible evidence-based academic, behavioral, and social/emotional interventions/ supports that target the specific needs of students and are connected to building/district goals.

Critical attributes

- 1. Demonstrates an extensive understanding of the supports and interventions that are available to students across all Tiers.
- 2. Provides leadership when collaborating with school personnel in order to develop school-wide, atrisk, or special education interventions.
- 3. Functions within a leadership role by researching interventions that are available to meet the needs of students and soliciting the obtainment of such materials.

1e. Demonstrating knowledge of a variety of assessment instruments and identifying measures that are able to evaluate educational needs and eligibilities

School Psychologist demonstrates little or no knowledge of assessment instruments and is unable to identify instruments that effectively evaluate educational needs and eligibilities.

Critical Attributes

 Uses incorrect or inappropriate data sources.
 Uses inappropriate or outdated instruments to evaluate educational needs, interventions, and progress. School Psychologist has limited knowledge of assessment instruments for systems, groups, and individuals and inconsistently identifies instruments that effectively evaluate educational needs and eligibilities.

Critical Attributes

- 1. Relies on limited data sources.
- 2. Suggests inappropriate instruments to evaluate educational needs, interventions, and progress.

School Psychologist has knowledge of a variety of valid and reliable assessment instruments for systems, groups, and individuals and consistently identifies instruments that effectively evaluate educational needs and eligibilities.

Critical Attributes

- 1. Relies on a breadth of data sources.
- 2. Accurately selects this information to suggest appropriate instruments that evaluate educational needs, interventions, and progress.

School Psychologist has extensive knowledge of valid and reliable assessment instruments for systems, groups, and individuals and always identifies instruments that effectively evaluate educational needs and eligibilities.

Critical Attributes

- 1. Relies on a breadth of data sources.
- 2. Accurately selects information to make specific recommendations for effective instruments that evaluate educational needs, interventions, and progress.
- 3. Selects evaluation instruments based on specific student needs.

Domain 2: The Environment

School Psychologists - HEPI - Component 2a Component Ineffective Partially Effective Effective Highly Effective Highly Effective

2a. Establishing rapport with students, parents, and school personnel

School Psychologist's interactions with students, staff, and parents are negative or inappropriate. Students appear uncomfortable in School Psychologist's environment.

Critical attributes

- 1. Lack of respect is observed in interactions with others.
- Students refuse to speak with School Psychologist.
 No effort is made toward repairing relationships or building rapport.

School Psychologist's interactions with students, staff, and parents are a mix of positive and negative. School Psychologist's efforts at developing rapport are inconsistent.

Critical attributes

- 1. Interactions with others are inconsistent and there is limited respect demonstrated through words or actions to students, parents, and/or school personnel.
- 2. Some students refuse to speak with School Psychologist.
- 3. Inconsistent effort is made toward supporting respectful relationships and building rapport.

School Psychologist's interactions with students, staff, and parents are positive and respectful. Students appear comfortable in School Psychologist's environment.

Critical attributes

- 1. Respectful interactions with all stakeholders.
- 2. Effort is made toward repairing relationships and building rapport.
- 3. Establishes visibility in the school and is approachable to all.
- 4. Has an "open door" policy for students, staff, and parents.

School Psychologist creates an environment that is welcoming to diverse students and families, using knowledge of individual students' background information to guide interactions. Students, staff, and parents seek out School Psychologist, reflecting a high degree of comfort and trust in the relationship.

Critical attributes

- 1. Parents, students, and staff regularly seek out the support of School Psychologist.
- 2. Interactions with staff during consultation are respectful and reciprocal.
- 3. Efforts are made to repair relationships and reestablish rapport with all stakeholders.
- 4. School Psychologist is sought out by building/district administration to act in a leadership role or as a facilitator.
- 5. Establishes visibility in the school/district and is approachable to all.
- 6. Promotes an "open door" policy for students, staff, and parents.

3b. Interpreting data to facilitate effective instructional decision making

School Psychologist does not use data and/or incorrectly interprets data to inform decision making in problem-solving and eligibility meetings.

Critical attributes

- 1. School Psychologist refuses to be a part of the problem-solving team or does not participate in discussions about student concerns.
- 2. Fails to make data-based decisions regarding instruction and interventions.
- 3. Does not collaborate with other staff.

School Psychologist presents data in a way that is not clearly understood by other team members. School Psychologist is a passive participant in problem-solving and eligibility meetings.

Critical attributes

- 1. Participation on the problem-solving team is inconsistent, and School Psychologist rarely participates in discussions about student concerns.
 2. Has limited knowledge of tools and processes to effectively collect data and
- monitor progress.
 3. Uses incorrect or superfluous data for instructional planning or decision making.

School Psychologist clearly interprets data for team members and facilitates effective decision making in problem-solving and eligibility meetings.

Critical attributes

- Regularly participates on the problem-solving team and makes meaningful contributions to discussions about student concerns.
 Consistently uses tools and processes to effectively
- collect data.
 3. Uses accurate data sources to assist with instructional planning, progress monitoring, and decision making.

School Psychologist always interprets data clearly and concisely and promotes effective decision making in a culturally responsive manner across meetings at the system, group, and individual level.

Critical attributes

1. Provides leadership to the problem-solving team and facilitates the process so that all members can provide meaningful contributions to discussions about student concerns. 2. Effectively and consistently uses tools and processes to collect data and monitor progress. 3. Mentors and/or guides others in the use of tools and processes to collect data and monitor progress. 4. Relies on a variety of data sources to drive

instructional planning, progress monitoring, and decision making.

3c. Promoting the use of evidence-based interventions and supports based on student needs

School Psychologist does not attend scheduled consultations regarding evidence-based interventions for specific students.

Critical attributes

1. Refuses to attend or does not contribute in appropriate ways to meetings in which interventions are developed for students.

2. Makes no recommendations or recommendations are not based on student data.

School Psychologist passively participates in scheduled consultations regarding evidence-based interventions for specific students and provides limited input.

Critical attributes

- 1. Provides limited, meaningful contributions to meetings in which interventions are developed for students.
- 2. Recommends standard interventions without attention to student data.

School Psychologist is actively involved in scheduled consultations regarding evidence-based academic, behavioral, and social/emotional interventions that target the specific needs of students.

Critical attributes

student data.

1. Regularly participates in meetings in which appropriate interventions are developed for students. 2. Recommends appropriate interventions based on

School Psychologist initiates consultations regarding evidence-based interventions with staff and families, contributes actively and positively during consultations, and helps to align interventions with building/district goals.

Critical attributes

1. Provides leadership during meetings in which appropriate interventions are developed for students. 2. Recommends individual interventions that are responsive to individual student needs.

3d. Administering and interpreting the appropriate assessments in order to make a thorough evaluation of student educational needs

School Psychologist does not adhere to standardization procedures when administering assessments or does not score assessments accurately.

Critical attributes

- 1. Does not use appropriate assessment materials.
- 2. Does not follow standardized procedures when evaluating.
- 3. Reports are full of errors, are unclear, and contain professional jargon.
- 4. Evaluation results do not inform or guide interventions, eligibility, or supports.

School Psychologist administers assessments adhering to standardization procedures and accurately scores assessments. School Psychologist either does not synthesize evaluation data accurately or prepares paperwork that is not understandable to school staff.

Critical attributes

- 1. Has limited knowledge about available assessment materials or uses inappropriate assessments.
- 2. Follows standardized procedures for evaluation inconsistently
- 3. Reports are a mixture of professional jargon and "layman's" terms and are unclear to parents and staff.
- 4. Evaluation results provide limited guidance in the development of interventions, eligibility, or supports.

School Psychologist properly administers assessments adhering to standardization procedures. School Psychologist scores and interprets assessments and prepares paperwork that accurately synthesizes evaluation data in a manner understandable to school staff.

Critical attributes

- 1. Knowledgeable about available assessments and uses the appropriate instruments to answer questions based upon student characteristics.
- 2. Follows standardized administration procedures.
- 3. Reports rely on the use of "layman's" terms to ease comprehension for parents and staff.
- 4. Evaluation results inform and guide interventions, eligibility, and supports.

School Psychologist properly administers assessments adhering to standardization procedures. School Psychologist scores and interprets assessments and prepares paperwork that accurately synthesizes evaluation data that are understandable to students (when appropriate), parents, and school staff, and the assessments meaningfully contribute to eligibility determinations.

Critical attributes

- 1. Knowledgeable about a variety of assessments and selects the most appropriate instruments for addressing unique student characteristics.
- Proficient in assessing a variety of student needs (e.g., autism, nonverbal, executive functioning, cognitive impairments).
 Proficient in building
- rapport with students during assessment in order to obtain valid results.
- 4. Reports are understandable to parents and staff and include examples of student performance.
- 5. Results meaningfully contribute to the determination of interventions, eligibility, and supports.

4b. Maintaining accurate records

colleagues.

Highly Effective - Can produce and explain his/her data.

School Psychologist does not have a system for monitoring deadlines; many evaluations are not completed by the deadline.

Critical attributes

- Records are inaccurate and/or unavailable.
 Does not follow
- procedures for obtaining and maintaining records.
- 3. Does not attend trainings/in-services provided by the district about updates to district/legal mandates.
 4. No data management

system.

School Psychologist has a rudimentary system for monitoring deadlines and completes most evaluations and reevaluations before the deadline.

Critical attributes

- 1. Records are somewhat accurate and inconsistently accessible.
- 2. Inconsistently follows procedures for obtaining and maintaining records.
- 3. Sporadically attends trainings/in-services provided by the district about updates to district/legal mandates.
- 4. Inconsistent data management system.

School Psychologist has developed an effective system for ensuring the completion of all evaluations and reevaluations on or before the deadline.

Critical attributes

- 1. Records are accurate and accessible when needed.
- 2. Follows correct procedures for obtaining and maintaining records.
- 3. Attends trainings/inservices provided by the district about updates to district/legal mandates.
- 4. Utilizes an effective data management system and can readily access data.

School Psychologist has developed an effective system for ensuring the timely completion of all evaluations and reevaluations and proactively communicates timelines to case managers and related service personnel.

Critical attributes

- 1. Records are always accurate and accessible when needed.
- 2. Follows correct procedures for obtaining and maintaining records.
- 3. Regularly attends trainings/in-services about updates to district/legal mandates and disseminates this information to colleagues.
- 4. Can produce and explain his/her data.

4c. Collaborating with teachers, administrators, parents, students, and appropriate community supports School Psychologist does not respond to staff and parent requests for information.

Critical attributes

- 1. Little or no information regarding students or the services that are provided is available to parents, staff, and/or community agencies.
- 2. Does not respond to communication requests made by students, parents, staff, and/or community agencies.
- 3. Communication during meetings or consultation is ineffective or disrespectful.
- 4. Does not advocate for the best interests of the student.

School Psychologist is inconsistent in responding to staff and parent requests for information.

Critical attributes

- 1. Some information regarding students or the services that are provided is articulated to parents, staff, and/or community agencies.
- Slow to respond to communication requests made by students, parents, staff, and/or community agencies.
- 3. Communication during meetings or consultation can be ineffective.
- 4. Inconsistently advocates for the best interests of the student.

School Psychologist initiates contact with teachers and administrators to confer regarding student needs, and responds promptly and appropriately to parent inquiries.

Critical attributes

- 1. Information regarding students and the services that are provided is regularly articulated to parents, staff, and/or community agencies.
- 2. Knowledgeable about the services of community agencies and makes attempts to involve and communicate student progress with them.
- 3. Responds to communication requests made by students, parents, staff, and/or community agencies in a timely fashion.
- 4. Communication during meetings or consultation is effective and meaningful.5. Advocates for the best interests of the student.

School Psychologist proactively seeks out teachers and administrators to confer regarding student needs, and initiates contact with parents and appropriate community supports.

Critical attributes

- 1. Information regarding students and the services that are provided are initiated by the School Psychologist and are well articulated to parents, staff, and/or community agencies.
- 2. Highly knowledgeable about the services of community agencies and makes multiple attempts to involve and communicate student progress with them.
- 3. Initiates communication and responds to requests made by students, parents, staff, and/or community agencies.
- 4. Facilitates effective communication during meetings or consultation.5. Always advocates for the best interests of the

student.
